

2005 Utah Cougar Hunt Boundary

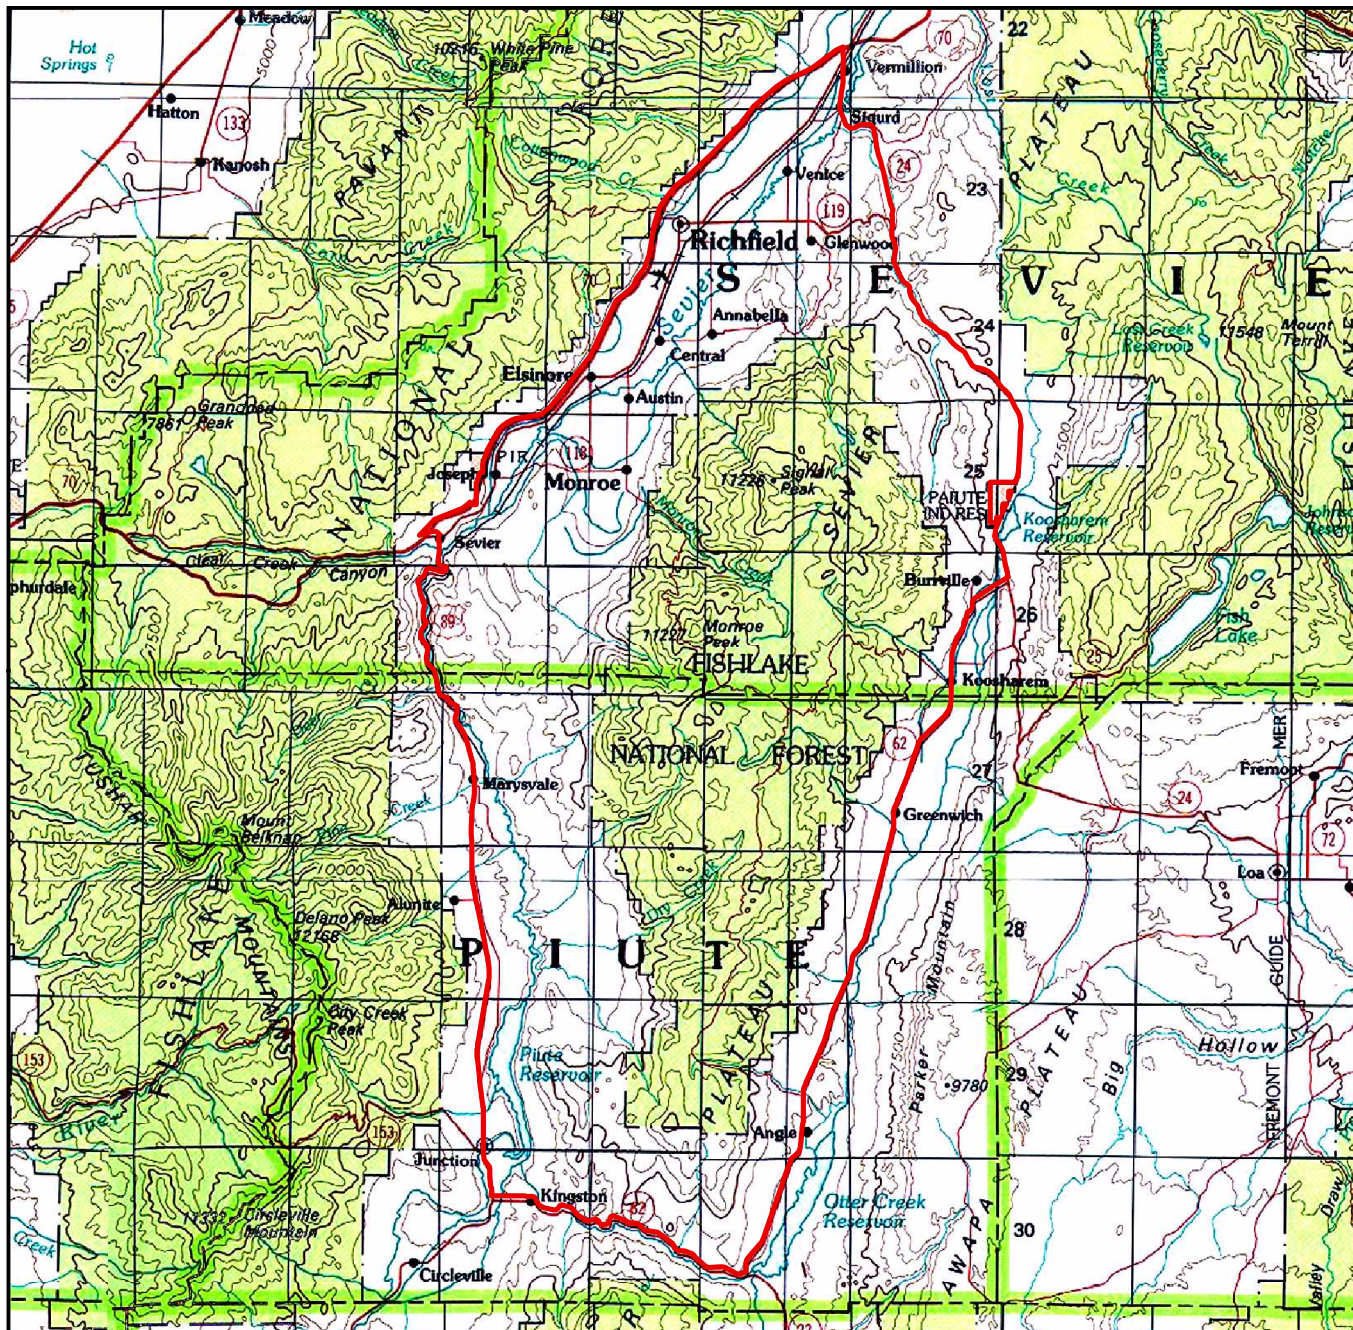

23 Monroe Mountain

Piute and Sevier counties — Boundary begins at I-70 and US-89 at Sevier; south on US-89 to SR-62; east and north on SR-62 to SR-24; north on SR-24 to I-70; south on I-70 to US-89. The Division has contracted Utah State University to study the cougar population on Monroe Mountain. The purpose of the study is to gather information about population dynamics and monitoring, and the relationship between cougar and mule deer. Researchers have experienced a high mortality of radio-collared cougar. All remaining radio-collared lions are adult females. The Division requests that hunters who draw a permit on this unit not harvest any radio-collared animals. Should you harvest a radio-collared cougar, please contact the Division. Your assistance is appreciated and will help us manage cougar better in the future. Boundary questions? Call DWR Cedar City office, (435) 865-6100.

Important Note: Although every effort is made to ensure the accuracy of this map, it is provided for general reference only and does not constitute the legal hunt boundary for this unit. Please refer to the appropriate proclamation for the authoritative boundary description of this hunt, as well as all relevant regulations. Please be advised that cooperative wildlife management units and some other areas are closed to hunting.
